For the parents and educators in the room [...] The worst thing you can do is start a sentence with "back in my day."

Back in your day doesn't matter. What does matter is that you care and that you too are trying to figure out how to make sense of an ever-changing environment,

Alexander Graham Bell's interest in the education of deaf individuals led him to develop the microphone and in 1876, what he referred to as an "electrical speech machine", better known today as a telephone.

Det var en fantastisk känsla när Barack Obama nu också besökt Polen. Valdems (Sandku) mängder med mat för att möta mina polska vänner. Juhu! Minne om hela projektet med polska filmer och en novellisering av Andrzej Sapkowskis, författaren bakom Witcher-världen. Passande nog fick han också ett ex av det nyckande färska The Witcher 2: Assassins of Kings. Nu hoppas vi att presidentens burk pållar systemkraven.

**Want An iPod Nano Watch? Everyone. Idea Poised To Be Kickstarter King**

MG Siegler Nov 24, 2010

We've talked a lot about **Diaspora**, the open-source Facebook-alternative, in recent months. One of the reasons for that is the massive success that's been going on with the crowdfunding funding-raising site, Kickstarter. The project raised over \$200,000 from nearly 6,500 backers in just 39 days. Now a new project has already blown that tally out of the water: an iPod nano-based multi-touch wristwatch.

Scott Walker, the founder of Chicago-based product and design studio, **HotGears**, set out with an idea to create two watch enclosures for Apple's latest iPod nano. He wanted the **TikTak** to be a low-end (\$35) and the **LunaTik** to be the high-end (\$70). So he put his project on Kickstarter with a goal of raising \$15,000. So how is he doing?
